DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

> A person shall be entitled to a patent unless –
>
> (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(n) as being anticipated by Luce, US Patent 1,359,461. Particularly noting figure III, the claimed subject matter is clearly shown. A handle for a carrying case 1, the handle comprising a first portion 5 comprising an upper portion and a lower portion, the upper portion defining a receiving area and the lower portion defining a first carrying case engagement portion; and a second portion 6 comprising an upper portion and a lower portion, the upper portion defining a nesting part that nests within the receiving area when the handle is in use and the lower portion defining a second carrying case engagement portion; wherein the nesting part pivots within the receiving area. Note that inherently at least a minimal amount of pivoting would be allowed in the manner claimed. The claimed method is inherent to the design.
